Alaska Medicaid Provider Update
Optum Claim Adjustment Projects
May 14, 2021

Optum is reprocessing claims due to required system updates. Providers will be seeing adjusted claims in upcoming remittance advices. Dates of service impacted are February 1, 2020 forward. The adjustments should be processed and completed by June 30, 2021. These adjustments are not related to any errors made by you as a provider and the Optum system is being updated to resolve this. Please note that this is an informational update, there is nothing that you need to do as a provider regarding these adjusted claims.
