

Alaska Medicaid Provider Update

Service Authorization Cluster Guidance

May 15, 2023

Service Authorization Clusters are a grouping of service codes that can be on one service authorization, sharing one authorization number. Only one service authorization form will need to be submitted. However, there is a possibility that due to service authorization clusters, more than one service authorization number will be issued per service authorization request form. Below, is the list of clusters, including the cluster name and the service codes associated with that cluster.

Questions? Please contact Provider Relations at akmedicaid@optum.com

Service Authorization Clusters

- The following are the Cluster Name and Service Code(s) (Cluster Detail)
- Any code in a cluster detail box will be on a shared authorization.
- Note, there are clusters that have a single code.
